

Regulatory Reform Committee- 5/13/15

Written Testimony of Officer Todd Camilleri in support of HB 4185

Sir,

HB 4185 bill change is simple. The process is flawed. The SOS decided I was doing Salvage Vehicle Inspections Improperly. At no time was I contacted to discuss this matter. In fact, I felt I was doing my inspections better than most. The certain individual that are charge of the program made it very hard to even communicate with them. In fact they almost made it impossible.

I did Salvage Vehicle Inspections for two and half years without any communication for the state. They just decided they were going to cut me from the program and gave me no chance to defend myself.

I truly appreciate your effort regarding this bill.

Thank You
Todd Camilleri
